OLD LACE LATTE MOCHA PORT ELEPHANT MIDNIGHT BLUE HERITAGE BLACK GHOST WHITE • Leather is a natural product and differs from hide to hide in its appearance. Variations in the texture of the leather, including wrinkles, scars, dents and blemishes should not be considered a fault but indications of genuine leather and inherent of the natural beauty and uniqueness of the leather.

As every piece of leather is different, each hide may accept colour dyes a little differently during the tanning process; this may cause irregularities in the consistency and depth of the colour. Please use your swatch as a reference point and not an actual representation.

It is our policy to accept no returns on all leather covered product for any reason where the cause is due to the nature of the leather itself.

Gete Hemp is an environmentally friendly crop which requires no pesticides or herbicides when grown, therefore producing "organic" and environmentally friendly products. Hemp is among the earth's primary renewable resources. Hemp fabric requires fewer chemicals than cotton and is stronger and longer lasting. Due to the fabrication process in dying hemps there can be colour shifts from one batch to another, it is important to use the swatch as a reference point and not an actual representation.
